Sit / Standing rise and fall desks to support ergonomic working. Paired with colour coded high quality office chairs and felt desk dividers.

Acoustic products in the ceiling, in both lighting and ceiling treatments, in the Topcon branding colours, to create a softer look to the space and support sound dampening and privacy.

Soft felt flexible acoustic walls in colours of our choice to divide the working areas. Combining with living walls of green plants to add vitality, oxygen and well being in to the spaces.

Bringing corporate colour into all the different spaces via accent furniture, rugs and accessories.

Using plants around all the spaces to enliven and to create a feeling of vitality and health.

I work very closely with a company called Rug Couture. (www.rugcouture.com) They make rugs to fit the exact sizes and shapes required for each area in any pattern and with a huge choice of colours in different qualities of wool to for with our aesthetic.

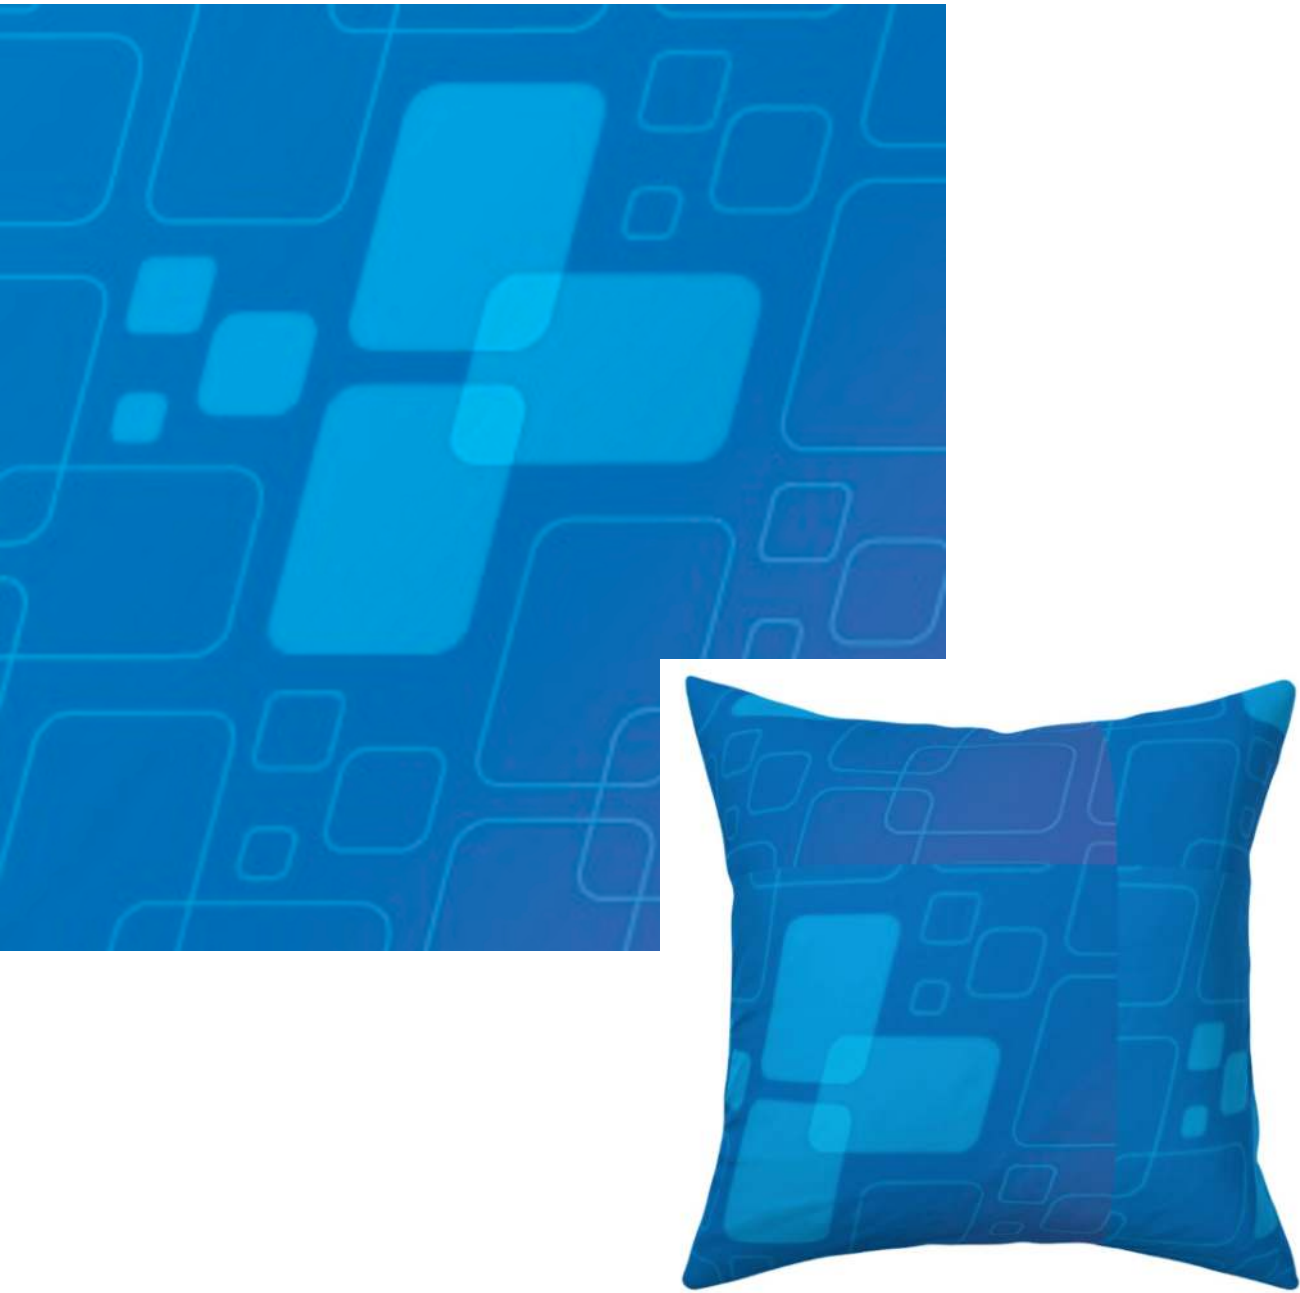

We can give them the branding design pattern and this can be made in to rug format with the colours that we specify.

The branding pattern can also be 'carved' out of the wall if we want to keep the pattern a little more subtle.

An example of a pattern given to Rug Couture which was then turned into a 5m x 4m rug.

------	--	--	---	---

Companies like www.spoonflower.com/en/shop/uk will take any image that is uploaded and produce it on to a variety of items, like these cushions which I've illustrated here using the branding design.

Alternatively there are some beautiful fabrics around like this one by Jane Clayton for Prestigious Textiles (which are a good value fabric supplier) that remind me of the shapes and colours from the our branding.
